DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20, 29-52, 61-83, 92-115, 124-127, drawn to an antibody to a NKEF C protein of SEQ ID NO:2, classified in class 530, subclass 387.9.
 - II. Claims 21-28, 53-60, 84-91, 116-123, drawn to a method of detecting NKEF C protein in a biological sample using the antibody, classified in class 435, subclass 7.2.
 - III. Claims 128-132, drawn to a method of treatment by administering the antibody to the NKEF C protein, classified in class 424, subclass 85.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are related as product and processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (M.P.E.P. § 806.05(h)). In the instant case the antibody of invention I as claimed can be used in the process of immunochromatography, to purify the NKEF C protein.

Having shown that these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter as defined by MPEP.. § 808.02, the Examiner has *prima facie* shown a serious burden of

Art Unit: 1646

search (see MPEP.. § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
